

REMARKS

Claims 1-14 and 26-30 are currently pending in the application. By this amendment, claim 2 is amended to correct errors that have come to Applicants' attention. Particularly, the amendment is needed to correct a typographical error in dependent claim 2, as claim 2 is directed to processing of the underside of the board (not the upper side). The amendment does not necessitate additional search or examination because only dependent claim 2 is being amended, i.e., the scope of allowable independent claim 1, from which claim 2 depends, remains unchanged. Claim 2, as amended, remains patentable due to its dependency from allowable independent claim 1. The amendment was not presented earlier because Applicants only became aware of the error in claim 2 after receipt of the Notice of Allowance.

Applicants representative discussed the above-noted amendment with Examiner Kiliman in a telephone conversation on June 5, 2009, and the Examiner indicated that the instant amendment would be entered. As such, the above amendment, made prior to the payment of the issue fee, is requested to be entered. The Examiner is invited to contact the undersigned at the telephone number listed below, if needed.

Respectfully submitted,
Frank OLDORFF
